Curriculum Vitae
Esther Bättig

Board Member VFP

Esther Bättig holds a diploma in nursing and a master's degree in nursing science from the Institute of Nursing Sciences at the University of Basel.

She worked for 16 years at Spitex Stadt Luzern in nursing, process and quality management. Since 2013 she has been a research assistant in the Quality / eHealth department of Spitex Switzerland. She is mainly concerned with interRAI instruments for needs assessment, billing of nursing services, data management (she manages the Spitex data pool HomeCareData), electronic patient files and mobile health. Esther Bättig contributes her knowledge of outpatient care to various national committees and represents Spitex Switzerland in the expert council of the Interprofessional Platform and in the national dementia strategy.
