

Emergency Department Simulation Study – Nursing professionals & students needed!

We are seeking German speaking nursing professionals & nursing students to participate in a paid research experiment simulating a full-scale emergency department at ETH, Zürich and at the Swiss Center for Design and Health in Nidau (near Bern).

What it involves:

Participants will portray healthcare professionals in a realistic emergency department setting with actors playing patients.

- Medical students & professional doctors will typically take on roles involving clinical decision-making, patient assessment, and treatment planning.
- Nursing students & professional nurses will typically focus on patient care, monitoring, coordination, and supporting clinical workflows.

Schedule:

- Rehearsal Day: 22.05.2026, 13:00–17:00 (PB Labs, ETH Zurich)
- Main Simulation Days: dates tbc – Summer/Autumn 2026 (at PB Labs RZ, ETH Zurich, and at SCDH in Nidau)

Locations:

- PB Labs, D8, RZ Building, ETH Zurich, Clausiusstrasse 59, 8006 Zürich
- Swiss Center for Design and Health, Ipsachstrasse 16, 2560 Nidau

Participants will be compensated **45 CHF per hour** for their time + travel stipend (if needed). Not all participants are needed on every date — individual schedules will be coordinated.
